Awakening the Hero Within: A 12-Stage Journey of Self-Discovery

Embark on a voyage of inner discovery. What stories lie within you, waiting to be unearthed? iN Education's Hero's Journey is a five-week transformational change project. It challenges and enables ordinary youth to reflect on their story through journaling activities, self-reflection, art expression, and other self-discovery tools. They will discover and identify areas of change and start their transformation from within.
